CAREER OBJECTIVE

Computer Science graduate with hands-on experience in **Python, Java, Object-Oriented Programming, Data Structures & Algorithms, SQL, Django, REST APIs, JavaScript, and database-driven application development**. Experienced in building and deploying web applications and software systems, with additional expertise in machine learning and AI. Strong foundation in software engineering, debugging, problem solving, version control, and full-stack development. Seeking a **Python Developer / Software Engineer** role to build reliable applications, solve complex engineering problems, and contribute to scalable software products.

EDUCATION

B.Tech in Computer Science | *Bansal Institute of Engineering and Technology, Lucknow* | CGPA: 8.4/10 **2022 – 2026**
Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Digital Electronics, Machine Learning, Big Data, Cloud Computing, Theory of Automata, Computer Networks, Database Management Systems

TECHNICAL SKILLS

- **Programming:** Python, Java, C++, C, JavaScript, Object-Oriented Programming
- **Core Computer Science:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, CN, Problem Solving
- **Backend & APIs:** Django, Django REST Framework, REST APIs
- **Web Development:** HTML, CSS, JavaScript, DOM Manipulation, Responsive Web Development
- **Database:** MySQL, SQL, Relational Database Concepts
- **Software Engineering:** Git, GitHub, Debugging, Version Control, API Development
- **Machine Learning:** Scikit-learn, TensorFlow, Keras, Pandas, NumPy, XGBoost, Classification, Time Series
- **AI:** LLMs, AI Agents, LangChain, RAG, Vector Databases, MCP
- **Tools & Deployment:** VS Code, Streamlit, PythonAnywhere, Netlify

INTERNSHIP & TRAINING

Python with Data Science — Summer Internship | *Softpro India Computer Technologies Pvt. Ltd.* **July – Dec 2025**

- Preprocessed and visualized structured datasets in Python, then built and evaluated 3 supervised learning models over a 45-day internship; earned an A+ grade from an ISO 9001:2015 certified organization.

PROJECTS

MediStock — Intelligent Pharmacy Management Platform

Python, Django REST Framework, MySQL, React.js, Docker, Pytest | [Live Demo](#) · [GitHub](#)

- Engineered an enterprise pharmacy platform with versioned RESTful APIs, JWT authentication, and interactive Swagger/OpenAPI documentation.
- Architected deterministic FEFO batch allocation using database row-level locking to prevent overselling; built automated 4-tier expiry tracking and POS billing.
- Achieved 100% test pass rate across 21 Pytest test suites with CI/CD automation.

Employee Management System (EMS)

Java 23, OOP, JDBC, MySQL 8.0, DAO Pattern | [Interactive Demo](#) · [GitHub](#)

- Developed a modular employee & payroll application leveraging OOP inheritance, dynamic polymorphism, and interface abstraction.
- Implemented the DAO pattern with MySQL JDBC, using parameterized PreparedStatement queries to prevent SQL injection and managing atomic ACID transactions with rollback.
- Built departmental aggregation analytics (SUM, AVG, GROUP BY) with ASCII CLI tabular reporting and a browser-based live terminal simulator.

Real-Time Fraud Detection System

Python, FastAPI, Docker, Scikit-learn, XGBoost | [GitHub](#)

- Architected a modular transaction scoring pipeline with clean src/ and api/ separation, delivering sub-100ms inference latency via FastAPI microservices.
- Configured Docker Compose orchestration and automated environment configs for reproducible testing on imbalanced financial transaction data.

CERTIFICATIONS & ACHIEVEMENTS

- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** *Certificate ID: 103021690OCI25GAIOCP*
- **Agentic AI Certified Foundations Associate — Oracle** *Certificate ID: 103021690AAI26OFA*
- **GATE 2025 Qualified** *Score: 468*
- **Data Science with AI — IITM Pravartak Technologies Foundation**
